

The Great Water Conspiracy

Is The Device You Own Or Are Considering Getting, Proven By Dozen Of People's Empirical Results To Cause Dramatic Improvements In All Aspects of Health?

Cells of the body can only absorb water via the aquaporin channels. These aquaporin channels only absorb water molecules one at a time and in a single file. Many other experts on water have stated that water needs to be in some kind of hexagonal structure to ensure hydration happens. However, this is not accurate. Water molecules themselves temporarily take on a Hexagonal structure when frozen into snowflakes. Once thawed water returns to an unorganized state, unless it is exposed to the correct frequencies. If you drink water that is not properly structured, then your body has to expend energy to structure the water into this single file state. When you are young the body has the energy to structure water. When you are old the body does not have the energy to structure water. This results in then the proper ratio of water inside the cell to the outside of the cell becomes imbalanced. This imbalance triggers the body to being to die. This lack of structured water intake is one reason why older persons are so dehydrated and are in the process of dying.

Today you have a choice between different water structuring devices. You have Vortexing, ionizing, magnetics, passing water over gemstones and low earth frequency magnetics. Which one works best?

There may be other websites that try to explain their understanding of water structure, but none of them have discovered this message that water needs to be in individual molecules of water or single file strands of water molecules.

INTRODUCING THE WATER SMACKER – THE WATER THAT HYDRATES & MUCH MORE!

The Water Smacker is a resonant chamber that first erases the memory of the water and entrains the Schumann 7.5 hz. frequency hum of the Earth into your drinking water. It micro clusters the water molecule, so that it is absorbed easier into your body and cleans out your body fluids. It is 100% negatively charged so that it rids your body of the positively charged acids. Thus, supporting your body pH moving in the healthy 7.4 direction. It is like having the healing spring water from [Lourdes, France](#) in your own home. After your water is charged, if you drink water directly from the bottle it will shock you; it contains a static charge.

All alkaline water machines leach toxic metals into your drinking water, but they will never tell you that. With the Water Smacker, no toxic metals are leached into your water. We do not run a current of 250 watts though your drinking water like ionizers do, rather only 1 to 2 watts of energy that triggers 2 toroids to bring in 8,000 volts from the 100% negative aether energy (non-hertzian energy) but in .001 micro amps. The water will donate electrons to your tissues and blood, restores the blood cells ability to repel on another. So many people have clumped blood when viewed under a microscope. This lowers one's oxygen carrying capacity, energy and mood will lead to disease if not fixed. This water can cause blood cells to repel one another again. Thus, restoring an oxygenated tissue environment again. This water supports the cleaning out your colon and much, much more. [Read our testimonials.](#)

When going through the Hydrogen Garage Checkout process, please choose Stephen Heuer/Synergistic Nutrition as your referral source. He pays me a commission for this.

The Water Smacker has two tiny wrapped toroids inside that captures this FREE radiant energy from the aether. We pulsed a square wave into the silver wired wrapped toroid that is tuned to the Schumann Frequency of 7.5hz, no current is run though the water, only a pulsed freq. Only longitudinal freq. goes though the water. We are bombarded today with high freq. from cell phone, smart meters, wireless internet modems in our homes, etc, these frequencies, are harmful to our well-being and adding sparked , charged water into our body helps us get back to earth. The water on the earth , the plants, the animals the humans are only able to survive in the Schumann Freq. of approx. 7.5hz.

Longitudinal energy or power comes from the Black hole, that is in every galaxy. It has many names : non-hertzian (Nikola Tesla named), orgone energy, scalar energy, aether energy, the static charge all around us, that Tesla said can be tapped into. The FREE aether or Zero Point energy. Read the [benefits](#).

The Water Smacker With One Tesla Coil Will Take 48 Hours To Charge Up 50 Oz Of Water And Retails For \$370.00. The Professional Water Smacker With Two Tesla Coils Will Take 24 Hours To Charge Up 50 Oz Of Water And Retails For \$550.00 These Units Come With A Two-Year Warranty Against Workmanship and Are Designed To Last A Lifetime.

Smack your 32oz. drinking water bottle and raise the pH and lower the ORP!!

Guaranteed to satisfy you or your money back (minus shipping costs)

Micro clustered water when frozen makes perfect snowflakes due to the lining up of the water molecules.

[Work of Dr. Emoto](#)

Normal macro clustered water looks like welding slag when frozen and no line up of the molecules. The water smacker

magnetically line up the water molecules that will also help line up your cell molecules in your body and blood.

The hydrogen ionized water absorbs into your body better and quenches your thirst better. Ionized water is similar

to water at the bottom of the waterfall. Water that feels silky to your touch. [What does bad water look like when frozen?](#)

[This product is not intended to diagnose, treat, cure, or prevent any disease.](#)

Takes only 10 watts or less to run, but the longitudinal toroid circuit INSIDE, pulses and resonates water back to its original frequency.

ORMUS

The WATER SMACKER machine causes the ORMUS (mono atomic elements) to solidify into to a metallic state, that your body will love. The micro structuring of the water produces crystal snowflakes when frozen. The structuring comes from the ORMUS. Our DNA loves this ORMUS. The longitudinal energy through a pulsed Schumann frequency through the water, causing the ORMUS to wake up and crystallize. Crystal Geyser spring water has a lot of ORMUS in the water. All water has ORMUS in the water, some more than others. Bob Boyce™ explains during his talk at the [2016 Tesla Tech Conference, in New Mexico.](#)

WATER SMACKER BENEFITS

- 1) Drink water that truly quenches your thirst, the micro sized hydrogen ionized water molecule, is very small and will absorb into your body easier and faster. Most bottled water today does not absorb into your body and goes right through.
- 2) Raises the pH of your drinking water by 1 to 1.5. Example : 6.5 pH water will go up to 7.5 pH. If you leave the water smacker on the same bottle of water for 2 days+ the pH will go up to 1.5 pH higher. More alkaline. Drinking smacked water will take out the acids in your body, supporting your body's return to ideal 7.4 alkaline pH. 98% of cancer patients have acidic bodies. Everyone's body need help in this area. Most everything we drink is on the acidic side. [Soda](#) is the worst acid bomb you can drink, plus a sugar bomb to boot, ditch soda and drink smacked water and support your ability to Thrive and LOOSE WEIGHT!!
- 3) The Water Smacker will also lower the [ORP](#) by -20 to -40. (Oxidation-Reduction Potential) antioxidant that prevents cancer from growing.
- 4) Drinking water that tastes like clean spring water that just came out of the ground. Water that tingles your body, that triggers all cells to enjoy the 7.5 hz. frequency the nature earth, water, plants

and animals are used too. It takes all higher not wanted frequencies out of your drinking water and replaces it with the Schumann found nature earth frequency of approx. 7.5hz This charge will radiate out to other cells in your body! It will go to your digestive track, to your blood stream to your entire body.

5) This water brings back the electrical charge to your red blood cells and rids your blood stream of harmful symplasts (crystals in the blood that indicate liver & blood congestion. [Watch this Blood doctor video](#) showing blood clumped and then unclumped. Eliminating the symplasts is indication that you are improving the health of your liver and will help your blood reach through all the capillaries and tissues better. Your red blood cells will acquire the electrical charge aka zeta potential and will repel one another, rather than stick together. This allows the blood cells to carry oxygen easier though the blood stream. This can dramatically support the healing of your body.

6) Both from the electrons in the water and the higher oxygen levels created from increasing your pH into the alkaline direction, you can notice more energy. This water is great for fasting and losing weight. Helps Alkalize your body and promote the ideal 7.4 healthy pH state, it was designed to be at. 98% of all cancer patients have acidic body pH. Drinking "smacked" water will eliminate acid water and replace your body with more alkaline water. You will urinate the acid body water out of your system.

7) Some of the functions of smacked water is very similar to alkaline water machine. The ORP goes down -20 to -40, that is increasing the electron content of your water, making it an antioxidant water. Unlike normal water ionizers with titanium plates, you will never have titanium dioxide, snow white flakes floating in your drinking water. The Professional Water Smacker takes 24 hours to charge, so you must be a day ahead in preparation of your drinking water. The non-professional Water Smacker takes 48 hours to create charged water. Once the water is charged, it will stay charged for about 3 days. You fill up the 50 oz water bottle after every time you empty it and keep the process of making Smacker water going 24/7. You only need to drink 16 oz of this water per day to have a therapeutic effect.

8) Keep your immune system in working order, you may never get sick again, flu, cold, may help with allergies as well. Drinking Smacker alkaline water with support a detoxified and alkaline body terrain, which in turn supports a healthier immune system.

9) The Water Smacker will erase all the negative frequencies already in most water, and record the life giving 7.5 hz. the Schuman frequency into it. Drinking charged 7.5 hz frequency water absorbs into your body to combat bad EMF higher frequencies that we are being bombarded today with high frequency 2450 Hz (micro-waves) 1200Hz and 2350Hz, Cell phone signals, wireless modems, WiFi, smart meters. The higher frequencies are all harmful to our natural resonance of 7.5hz. Planet Earth, the plants the lakes, rivers, oceans and all living life are at the natural resonance of approx. 7.5 hz. Stayed tuned to nature and avoid being a robot. The water smacker inputs energy into the water and charges the water molecules. It allows the water to be absorbed by the cells inside your body. When you drink store bought bottled water that is NOT in the proper state, it will only add to your body's interstitial fluids and NOT readily absorb into your cells. More and more EMF pollution is being put out into the atmosphere today. Your drinking water is losing its charge. The Water Smacker brings back the natural earth water cycle, to your drinking water and into every cell in your body. With the added 4G and LTE and WiFi waves in the air all around us, cell towers are putting out 2450 Hz (micro-wave), 2100 - 2350hz. Wireless transmission towers for radio, TV, telecommunications, radar and many other applications, emit radio frequency radiation (RFR).

Radio frequency radiation covers a large segment of the electromagnetic spectrum and falls within the non-ionizing bands, producing acidic water in plants, animals and humans. These high frequencies knock the energy (electrons) out of the water, the plants, the animals and the humans, etc. The water becomes positively charged into more acidic water, which means more incidents of anerobic disease, such as cancer. If you want to do your body good! you want to drink negatively charged water.

10) The Water Smacker only draws 1 watt of energy, that is 24 watts total in a 24-hour day!

[Watch this video from the TeslaTech Conference](#), Bob Boyce® the inventor speaking about the Water Smacker, on 7/31/16

Not a medical product (The FDA requires all health products to mention this line.)

My Water pH is NOT going up?

The TRUTH about the PET plastic bottles we use to charge your drinking water

MORE BENEFITS of Drinking Smacked Water

11) Can't afford a health plan? Focus On A Preventive Health plan. Stay healthy and avoid the doctor and the hospital.

12) Boost your Immune System 100%, avoid the flu, colds.

13) Charge all other cells in your body with the natural 7.5hz frequency of the Earth, a mellow low subtone, un-audible to our hearing. Schumann Frequency.

14) Clean up your blood, take out symplasts, red blood cells move better and are rounder., moves more like when we were children.

15) Cancer which always has fungus growing with it, cannot grow in a properly alkaline and oxygenated body.

16) Drink water that absorbs easily and rejuvenates the cells in your body.

17) Test the charged water by placing your finger in the bottle, it shocks your finger.

18) May eliminate headaches. If you feel sick or dizzy have a glass of charged water and see if it does not go away.

Testimonies:

1) Two women got healed of "[shingles](#)" that nothing else seemed to work, in just 2 weeks of drinking Smacked Water. Now a third gal got rid of shingles skin patches on her forehead, drinking smacked water for 2 months, she loves this water, she is blown away. She says when she drinks this water, she feels happy, now her husband is trying it out.

2) A **pancreas cancer** survivor, 60 years young women, was only 90 lbs and now is back to her normal body weight (130 lbs) after one month of drinking smacked water daily. Her health came back and more energy than before. She lives on a low income and we fronted her the Water Smacker machine, and she came back wanting to buy it.

3) A **colon cancer** patient reported his body pH is now 7.4pH!!, due to drinking smacked water every day for the last month. The doctor told him, at least the cancer will stop growing in an alkaline body. Cancer is a fungus, and a high PH body supports healing from cancer. Drinking smacked water will boost your immune system 100%! [Not a medical product.](#)

4) One gentleman has been drinking 16 oz of smacked water every day for about a month, his **diabetic neuropathy or** numbness in his feet is going away, and he can feel his feet again!! He is 350 lbs and he says his urine is white, milky colored and getting calcium deposits in his toilet, that he has to clean. Toxins, salts, metals are coming out of his system, is what is happening. (9/16) He believes it is healing his diabetes! Will add more later. (10/16 update) **Blood pressure** improved, now 122/85 was higher before. PSA count was at 9.0, now 7.0, dropped 2 counts. : His **prostate** was at 4.0 count, now at 0.5 ! His doctor told him whatever you're doing keep it up. He did not mention he was drinking the charged smacked water. He is stoked and will continue drinking the water. Will add more later.

5) [Bob Boyce™](#) the DOD Scientist inventor of this Water Smacker. Went to the doctor, as this strange medicine they told him to take, gave him an allergic reaction and a stroke. They thought a piece of plaque in this blood stream caused it, later they found out it was the allergic reaction to the medicine. Before that diagnostic, they scanned his entire body to find no plaque at all. In 2015 he had quadruple bypass surgery and his main veins were clogged and the had to use veins from his legs and bypass these main arteries. Well, he said all his veins are now clear!! and working again!! He drank a gallon of charged water everyday this year and eats better than before. We all think, the ionized charge water is what cleaned up his blood!! This will be one of many, many more testimonies. (more on Bob Boyce testimony below.) (3/2017)

6) **Acid Reflex**, burping and heart burn, went away while drinking 16 oz of Smacked water per day.

When one does a [cleanse fast](#), they clean out their colon and you're not to drink alcohol during the week cleanse. I have done this before and when you drink a beer after the week cleanse, you get really high off one beer, as your body is more sensitive to the alcohol than before. Drinking the smacked water for one day, will do the same!!

One fellow claims his **skin cancer** of 10 years is finally going away, is it from drinking this water?

I (Andrew) have been drinking [Kangen water](#) for 5 years now, I switched over to Smacked Water. Now I never get sick, like the flu. Even when my whole household and wife got sick, I did not, and I kept working. My inherited arthritis went away! When I have a headache, I drink a glass of Kangen water, and it goes away. Now I switched to Smacked Water and it gives me more energy than the Kangen water and has no white flakes in the water (titanium dioxides) that cannot be removed from the body, they do fall to the bottom of the glass and can be avoided by not drinking the last oz in the glass. The water smacker does not have this metal in the water. Any metallic taste from smacked water is from the [ORMUS](#) that is in your water that is coming out. For me drinking Smacked water took away my acid reflux and my burping problem, is now gone!
